Not tomorrow: George, Haley and I will be out of pocket tomorrow on some U.S. Forest Service site visits. Next week I am available Monday **other than** 10:30 am – 12:00 pm, wide open on Tues and Weds. Thurs and Fri, I'm tracking a few other things but do have open slots.

George and Haley – can you shoot Rudy some times for next week.

Rudy, we greatly appreciate your effort scheduling (August is tough!).

Tom

Tom, are you available for a briefing regarding the Springfield property on Thursday (August 18) at 8:30 AM or 9:00 AM.

I have also copied Haley and Georgy.

As soon as I hear from you, I will reserve appropriate lines.

Thanks.

Subject: Briefing request: Jones and Lamson Plant 1 site, Springfield

Rudy: We would like to talk to appropriate Region 1 staff to get up to speed on the J&L Plant site in Springfield Vermont and EPA's past, current, and possible future involvement in site assessment and clean-up.

This property includes about 250,000 square feet of abandoned and badly degraded buildings dating back to early in the last century, on the bank of the Black River. The EPA has helped with site assessment and some clean-up through the Brownfield program, with support from the Congressional delegation. Information gained through those assessments, as well as the accelerating decay of the buildings suggests that emergency action may be required now to address site contamination and public health and safety concerns. We are interested in hearing what the EPA knows of the site and any suggestions for next steps.

Thank you in advance for looking for a date that EPA staff familiar with the project be able to do a conference call with our offices.

Tom
